Introduction

"BlueSpot Technologies pleased to submit this proposal to your ERP requirements."

We welcome the opportunity to work with you on this exciting project.

It is our understanding your objective that ACCESSCO seeks to implement ERP software that can

- Improve productivity
- Increase efficiencies
- Decrease costs and
- Streamline processes

We believe we are highly qualified to assist and guide on your ERP requirements through our cloud based ERP Solutions.

We combine strategic thinking and emerging technologies to provide innovative solutions that consistently break new ground with performing work on budget and on deadline.

We deliver high-quality work through our focus on bidirectional communication, responsive customer service, client education, accurate project management, product quality, and an ethical approach to business.

Thanks & Regards

BlueSpot Technologies

About Us

> BlueSpot Technologies provide a full range of Digital Services and Digital Solutions across various industries. Our clients are successful online and together, we have a lot of fun along the way.

We strive to be a leader in web design and development. BlueSpot Technologies takes pride in working with businesses of all sizes as well as individuals and organizations, with our focus on small to medium businesses.

Underpinning the different Digital Services and Digital Solutions, we provide are methodologies, processes and systems to deliver real, commercial, online success to our clients whilst also delivering superb projects and outstanding client service.

We're passionate about what we do and deliver. We're down to earth. We look for long-term relations with our clients.

Our Team

Our team is made up of the best of the best in various specialties including Web & Graphic Design, Web & Mobile Application Development and more, and are constantly pushing the envelope to ensure we bring you the best creative team possible.

Our Services

Web Design

Your business is unique, make sure your website is too.

Achieving commercial success boils down to your website offering a great user experience (UX). It's as simple and complex as that!

Ensuring your customers get your message relies on delivering an engaging experience, through modern website design, compelling them to take the next step. Central to this is our intimate understanding of user behavior, responsive websites, content strategies & various analytical tools.

Web Application Development

Turning website design concepts into a functioning masterpiece.

Web development is more than just creating Content Management Systems (CMS). Our web application development team is responsible for a number of 'behind the scenes' tasks such as integrating existing systems, creating a customised **ERP and CMS** web application development intranets and security, to name a few.

Want to integrate your web application or eCommerce website to your accounting system? Our web developers have the expertise and love a challenge!

Mobile Application Development

As a full service custom mobile app development company, we handle the entire lifecycle of your product: Ideation, Product Strategy, Design, Project Management, Development, QA, and Delivery. We use a unique agile process that gives you control over scope, reduces your risk, and provides you predictable velocity.

E-Commerce

We offers end-to-end eCommerce web solutions to businesses who are seeking to launch themselves in the online retail business. From the stages of planning to promotion, our goal is to help you launch a successful digital store that increases the bottom line of your business.

Terms & Conditions

Terms

The performance of the design and production services and delivery of tangible property (collectively the “Design and Development Services”) described in the contract or invoice of which these terms and conditions are a part (or are on the face hereof) by BlueSpot Technologies to the client identified in the attached contract or invoice (“Client”) is governed by the following terms and conditions. Unlike otherwise agreed in writing, BlueSpot Technologies expressly rejects any additional or different terms or conditions proposed by Client

Description of Work

The Agreement (the “Agreement”) for the project described in the Scope of Work to which these terms and conditions are attached (the “Project”) shall consist of the final Scope of Work and Timeline, these terms and conditions, and any change orders set forth in writing and executed by BlueSpot Technologies and the Client after the acceptance of the original Scope of Work. Changes to the Scope of Work may result in adjustments to the charges for the Project.

Payment

Payment for Design and Development Services will be made as follows. 50% of the Estimated Design and Development Fees are due upon acceptance of the proposal. The remaining balance will be paid phases throughout the development of the project. BlueSpot Technologies reserves the right to withhold delivery of all electronic and/or printed materials until the undisputed portion(s) of overdue invoices are paid.

Changes to Scope of Work

Revisions or alterations to the Scope of Work shall obligate the Client to additional fees and costs. These may include but are not limited to: changes made to copy after the final copy has been submitted; changes made to the design once layouts, website design, or site map have been approved; extensive alterations; a change in marketing objectives on the part of the Client and new work requested by the Client after the execution of the Agreement. All production costs are based on the assumption that copy will be provided electronically. Change orders will be prepared by BlueSpot Technologies and provided to the Client outlining the changes to the Scope of Work, and any additional costs for those changes.

Non-Disclosure of Confidential Information

Each Party will not, at any time, whether during or after the termination or expiration of this Agreement, for any reason whatsoever, disclose to any person or entity or use for any purpose other than fulfilling its obligations hereunder, the other Party’s Confidential Information, as defined below. Any concepts, business strategies, trademarks, service marks, materials, outlines, etc. provided to a Party by the other Party constitute trade secrets and Confidential Information under this Agreement and shall not be used by the other Party for any other purpose than for the purpose of the Project.

Terms & Conditions continued

Cancellation

In the event the Client cancels this Agreement prior to the completion of the Project, within five (5) business days of such cancellation, Client shall pay (a) BlueSpot Technologies for all work performed by BlueSpot Technologies up to the date of termination, (b) for all contracted for Outside Expenses and commitments that have been incurred and cannot be cancelled and (c) a cancellation fee equal to 15% of the remaining fees that would otherwise have been paid to BlueSpot Technologies if the Agreement were to have been fully performed.

Error

The Client has the responsibility to proofread and examine all work produced during the Project. Therefore, the Client is ultimately responsible for any typographical, spelling, grammatical, copy, photographic, illustrative, layout or other errors discovered after live or reproduction, or for any work or services performed by any party selected by the Client. In the event the Client determines that there are errors in the work produced during the Project, Client shall notify BlueSpot Technologies of any errors within 48 hours of Client's determination. Failure to promptly notify BlueSpot Technologies shall constitute a waiver by Client of any claim arising out of such errors.

Pricing

The prices set forth in this Agreement are valid through **Feb 14 , 2017** and represent BlueSpot Technologies good-faith estimate of costs included in the price. If designing and development component of this estimate, third party service charges are not guaranteed until purchase has been ordered. BlueSpot Technologies shall inform Client promptly if any variations in costs or outside expenses are anticipated.

Independent Contractor

In performing their respective obligations under this Agreement, the parties agree that their relationship is that of independent contractors and not that of a partners, joint venturers, agents, employees or part-time employees of the other party. Neither party will represent itself as, act or purport to act as or be deemed to be the agent, representative, employee or servant of the other party.
