Zeenara Technologies Introduction

ZEENARA TECHNOLOGIES is a full-service IT Consulting and software development company that provides end-to-end service for web and mobile application development services. We started back in 2010 as a creative design and web development studio. Our clients also benefit from the expertise we offer in hosting, email service and web maintenance. We have since grown to become a technology company providing additional services web design, web development, CMS websites, e-commerce websites, custom web applications, digital media projects, and more recently sales force CRM solutions to our clients.

We adhere to Agile approach for software application development which focuses on rapid iterations, small and frequent releases, and evolving requirements facilitated by user involvement in the development process. We are passionate about the information technology solutions we develop, the success of the projects we work on, and the clients we work with. We focus on providing high-quality products and services with emphasis on excellence in everything we do, so each project delivers maximized value and return to the client. We have established and refined our key processes through our years of successful experience that enables us to work effectively with our clients
